OVERVIEW

A smart billing solution built for Kirana stores

SnapBizz brings you a "smart" billing solution especially made for Kirana and grocery stores to help you perform everyday operations easily and much faster. It includes billing multiple customers at a time, inventory management, customer management, distributor management, a sales dashboard, your own mobile app and much more — helping you get ahead of the competition and win every day, with every customer. SnapBizz is driving digital transformation for thousands of stores, making them Smart Stores across the country.
